

MADGAMERS

Are proud to present

“A FISTFUL OF DICE”

**At Battlegroup South 2003
Bovington**

This is a western genre participation game for up to six players. Set in the small Texas town of Johnsonville our players have to rob banks, stagecoaches, stage a jailbreak or stop a “Mad Scientist”¹. Inspired by the many fine western movies shown in Cinema and on TV (“Carry on out west”, “Blazing Saddles”, “The Good, The Bad and the Ugly”). Developed after our “Rorkes Drift” game Last year. Denis Jackman has designed this game. The Terrain Boards and Building are by Tony Baker. The character figures by Rob Jones. Mark and Tim Foulds have been instrumental in putting this game together.

This game uses the GPS (Generic Play System) engine for play and has been customised especially for the genre.

MADGamers is a Berkshire based gaming group, which meets every Friday night in Maidenhead. There is more about us [here](http://www.madgamers.org).
